Curriculum

Teaching proficiency in English and French, as well as introduction to Latin within the arts, will provide a solid foundation in languages. Handwriting, Mathematics, and other disciplines will be given the attention necessary to help each student excel and better reach their potential. Students will learn their Catechism and formal Catholic prayers. Teachers will also encourage the children's creativity, motivating them to deepen their thinking. This will increase their confidence to explore what our present world is offering by using their own skills, talents and focusing on responsibilities as followers of Christ. Following the many examples of the Saints, Catholic spiritual life will permeate the school's culture, in every class and activity, so that what they learn at home will be reinforced at school.
